

Keeping Healthcare Services in Pace with Times

The Steering Committee on Review of Hospital Authority Welcomes Your Views

In view of the ageing population and the changing public needs for healthcare services, the Government set up the Steering Committee on Review of Hospital Authority (HA) in August 2013 to conduct a comprehensive review of the operation of HA. The review covers HA's management and cluster arrangement, resources management, human resources management, service levels and overall cost effectiveness. The aim of the review is to improve the operation of HA so that, as the cornerstone of the public healthcare system and the safety net for the public, it can continue to provide quality services and meet the challenges brought about by social development and ageing population more effectively.

Your opinion matters. To gauge your views on the operation of HA, the Food and Health Bureau will organize three public fora and cordially invites your participation:
